

Weller WX 2012 ULTRA MS Soldering Station

SKU: GW-WX2012

Features & Benefits

- ◆ **Patented Active Tip Technology:** The active tip technology used in the Weller WX 2012 is a triple-award-winning design, ensuring precise heat control and improved thermal efficiency. This feature allows for better heat transfer and faster soldering, which is crucial for heavy-duty applications.
- ◆ **WX 2 Soldering Power Unit:** The 230V WX 2 power unit is designed for professional use, offering stable power output, precise temperature control, and quick recovery times, ensuring that your soldering process is both fast and efficient.
- ◆ **RTU032SMS Soldering Tip:** The RTU032SMS tip is optimised for high-power soldering, allowing for maximum heat transfer and optimal performance when working on large components or complex assemblies.
- ◆ **WSR 200 Safety Rest:** The WSR 200 safety rest provides a secure place for your soldering iron when not in use, offering easy cleaning options to prolong the life of the tip and prevent any damage to the iron.
- ◆ **Ideal for High-Demand Applications:** This station excels at handling high-demand applications such as soldering large heat sinks, solar technology, multi-layer circuit boards, and hyper-frequency PCBs, where heat control and precision are paramount.

About the Weller WX 2012 ULTRA MS Soldering Station

The Weller WX 2012 ULTRA MS Soldering Station is an advanced, high-performance soldering solution that is designed to meet the demands of heavy-duty soldering applications.

This triple-award-winning station features patented active tip technology, providing exceptional power and precision for complex soldering tasks, including LED soldering, solar technology, multi-layer boards, and hyper-frequency PCBs with large dissipaters. The WX 2012 is ideal for professional environments that require maximum heat efficiency and consistent performance.

This user-friendly soldering set includes the WX 2 Soldering Power Unit (230V F/G), the Intelligent Ultra Soldering Iron WXUP MS (24V, 150W) with the RTU032SMS tip, and the WSR 200 Safety Rest, ensuring you have everything needed for efficient and safe soldering.

Specifications

Property	Detail
Power	150W
Application	ESD-protected areas, electronics mfg, cleanrooms
