

Weller WXsmart Heavy Duty Rework Set 6

SKU: GW-WXS-SET6

Features & Benefits

- ◆ **WXUPS-MS Soldering Iron (150W, 24V):** The WXUPS-MS Soldering Iron features 150W of power and Active Tip Technology, ensuring rapid heat-up and recovery times for even the most demanding soldering tasks. With a short tip-to-grip distance, the iron offers enhanced precision, making it ideal for both heavy-duty soldering and delicate work.
- ◆ **WXUTS SET – Ultra Soldering Tweezers (150W):** The WXUTS SET includes ultra-soldering tweezers with 150W of power, designed for precision soldering tasks, particularly in fine-pitch components or SMD (Surface-Mount Devices) work. The tweezers feature an RTWUS 015 B tip for detailed and high-precision work, making them suitable for miniature components. The set also includes the WSR 210 Safety Rest for safe storage.
- ◆ **WSR 200 2-in-1 Safety Rest:** The WSR 200 2-in-1 Safety Rest features metal wool brass and a sponge for cleaning your soldering iron tips. It helps extend the life of your tips by ensuring they remain free from excess solder and debris.
- ◆ **RTUS 032 S MS Ultra Soldering Tip (Chisel 3.2 x 0.8mm):** The RTUS 032 S MS Ultra Soldering Tip features a chisel design (3.2 x 0.8mm) for heavy-duty applications, ensuring effective heat transfer and precision. The Active Tip Technology helps maintain temperature accuracy during prolonged use.
- ◆ **Cartridge Tip Holder:** The Cartridge Tip Holder provides easy storage and access to your soldering tips, making tool swapping quick and efficient. It helps maintain a clean and organised workspace.
- ◆ **Advanced Connectivity and Control:** The WXsmart platform offers full traceability of the soldering process, with real-time data monitoring and USB connectivity for updates, configuration, and data logging. This ensures maximum control, especially in regulated environments.

About the Weller WXsmart Heavy Duty Rework Set 6

The Weller WXsmart Heavy Duty Rework Set 6 is a comprehensive solution that combines high performance, flexibility, and advanced connectivity for demanding soldering, desoldering, and rework applications.

This all-in-one system leverages the power of Active Tip Technology and WXair rework modules to deliver outstanding results for a wide range of industries, including electronics, automotive, aerospace, medical, and more.

Set Includes:

- **WX Smart 2-Channel Power Unit (300W, 230V)**
- Dual channel functionality for multiple tools
- Touchscreen control for ease of use
- USB interface for updates and data monitoring
- **WXUPS-MS Soldering Iron (150W, 24V)**
- Active Tip Technology for rapid heat transfer
- Fast 7-second heat-up time for enhanced productivity
- Precision and control with a short tip-to-grip distance
- **WXUTS SET – Ultra Soldering Tweezers (150W)**
- Precision tweezers with RTWUS 015 B tip
- Ideal for delicate SMD and micro-soldering work
- Includes WSR 210 Safety Rest for safe storage
- **WSR 200 2-in-1 Safety Rest**
- Dual cleaning system: metal wool brass and sponge
- Prevents soldering iron tip damage
- **RTUS 032 S MS Ultra Soldering Tip (Chisel 3.2 x 0.8mm)**
- Chisel tip for heavy-duty and precise soldering
- Active Tip Technology for consistent temperature regulation
- **Cartridge Tip Holder**
- Organised storage for quick access to soldering tips
