

Weller WXsmart Heavy Duty Soldering Set 4

SKU: GW-WXS-SET4

Features & Benefits

- ◆ **WXUPS-MS Soldering Iron:** The WXUPS-MS Soldering Iron (150W, 24V) provides high power performance while maintaining exceptional heat transfer and recovery times. This soldering iron is ideal for heavy-duty soldering tasks, offering a 7-second heat-up time to ensure maximum efficiency and speed. Its short tip-to-grip distance ensures precision and control during the soldering process, providing a steady hand for both delicate and large components.
- ◆ **WSR 200 2-in-1 Safety Rest:** The WSR 200 Safety Rest is designed to keep your soldering tip in top condition, featuring both metal wool brass and a sponge for cleaning. This 2-in-1 system ensures your soldering tips are properly maintained, preventing buildup and extending the life of your soldering iron.
- ◆ **RTUS 032 S MS Ultra Soldering Tip:** The RTUS 032 S MS Ultra Soldering Tip (chisel 3.2 x 0.8mm) is engineered for high-precision soldering with superior heat transfer. This tip is perfect for a variety of tasks, from heavy-duty soldering to precision work on both large and small components. The chisel design provides excellent surface contact, ensuring consistent, high-quality solder joints.
- ◆ **Optimised Heat Recovery:** With a 7-second heat-up time and superior heat recovery, the WXsmart Heavy Duty Set 4 allows for continuous work without downtime, increasing productivity for high-volume tasks.
- ◆ **Precision and Control:** The short tip-to-grip distance ensures excellent precision, making this set ideal for both delicate and heavy-duty soldering applications. Whether you're working on miniature electronics or large components, the WXsmart Set 4 provides the control you need.
- ◆ **Maximised Connectivity and Traceability:** The WXsmart platform provides full traceability and connectivity, allowing for precise monitoring of the soldering process. The connected tools provide real-time data, ensuring you can track and optimise each soldering task.
- ◆ **Sustained Performance:** With the Active Tip Technology and high-power soldering iron, the WXsmart system offers consistent and reliable performance, making it ideal for long-duration, high-demand soldering operations.

About the Weller WXsmart Heavy Duty Soldering Set 4

The Weller WXsmart Heavy Duty Soldering Set 4 is an ideal solution for users who need a versatile, high-performance soldering tool capable of handling a wide range of applications.

Featuring high to low power performance, this set is a flexible all-in-one soldering solution, making it perfect for tasks that require both precision and power. Whether you are working on large components, high-density PCBs, or intricate soldering tasks, the WXsmart Heavy Duty Set 4 has you covered.

Set Includes:

- **WXUPS-MS Soldering Iron** (150W, 24V)
 - Active Tip Technology
 - Fast heat-up and excellent heat recovery
 - Short tip-to-grip distance for precision soldering
- **WSR 200 2-in-1 Safety Rest**
 - Metal wool brass and sponge for cleaning
 - Keeps tips in optimal condition
- **RTUS 032 S MS Ultra Soldering Tip** (Chisel 3.2 x 0.8mm)
 - High-performance tip for precision soldering
 - Ideal for both large and small components

Specifications

Property	Detail
Power	150W
Application	ESD-protected areas, electronics mfg, cleanrooms
