

# Weller WXsmart Pico (Nano)/Micro Rework Set 2

SKU: GW-WXS-SET2

## Features & Benefits

- ◆ High-to-low power performance for versatile applications.
- ◆ WXsmart 2-Channel Power Unit with 300W output for rapid heat-up times.
- ◆ Best-in-class connectivity and cybersecurity for secure, controlled soldering.
- ◆ Optimised rework system for pico and micro tasks in high-tech industries.
- ◆ Precision soldering tips for both small and larger applications.
- ◆ Colour touchscreen interface for intuitive operation.
- ◆ Safety rest with metal wool brass and sponge for tool maintenance.
- ◆ Complete set of tips for a wide range of micro and nano soldering tasks.
- ◆ Easy-to-use design for maximum productivity and precision.
- ◆ This unit integrates cutting-edge connectivity and cybersecurity features, making it one of the most connected and controlled soldering solutions available

## About the Weller WXsmart Pico (Nano)/Micro Rework Set 2

The Weller WXsmart Pico (Nano)/Micro Rework Set 2 offers a versatile and highly efficient soldering solution, designed to meet the needs of professionals across industries like electronics, medical, automotive, and aerospace.

This all-in-one rework system provides exceptional flexibility, with high to low power performance, making it ideal for a wide range of soldering and desoldering applications.

At the core of this system is the WXsmart 2-Channel Power Unit (300W, 230V), which ensures rapid heat-up and recovery times, offering top-tier tip-to-station process control. This unit integrates cutting-edge connectivity and cybersecurity features, making it one of the most connected and controlled soldering solutions available. The colour touchscreen interface makes operation intuitive and straightforward, while best-in-class traceability enhances quality control during complex soldering tasks.

### The set includes:

- **WXMPS MS Micro Soldering Handpiece** for pico and micro tips (40W, 12V), perfect for delicate tasks requiring precision.
- **WSR 200 2-in-1 Safety Rest** with metal wool brass and sponge, designed to keep tools clean and safe between uses.
- **RTPS 004 S MS Pico Soldering Tip** and **RTMS 013 S MS Micro Soldering Tip**, each designed for precision in micro and nano soldering.
- **WXMTS Tweezers Set** with **RTWMS 030 K Tip**, ideal for fine desoldering operations.
- **Cartridge Tip Holder** for convenient tool management.

This Weller WXsmart set delivers unparalleled speed, control, and flexibility, making it the go-to choice for professionals seeking a reliable, future-proof soldering system.
