Weller ZS Guard 2 KIT2 ALFA

SKU: GW-FT-G2K2

Features & Benefits

- **Includes**:
- Featuring HEPA H13 filtration, activated carbon, and potassium permanganate, this powerful fume extraction unit ensures that soldering fumes, particles, and gases are effectively captured, creating a safer and more comfortable environment for professionals
- Key Features of the Weller ZeroSmog Guard 2: 1

About the Weller ZS Guard 2 KIT2 ALFA

Weller ZeroSmog Guard 2 – Dual-User Fume Extraction for Clean, Healthy Air
The Weller ZeroSmog Guard 2 is an advanced fume extraction system designed for dual-user workstations, providing clean, healthy air with superior filtration. Featuring HEPA H13 filtration, activated carbon, and potassium permanganate, this powerful fume extraction unit ensures that soldering fumes, particles, and gases are effectively captured, creating a safer and more comfortable environment for professionals. With its quiet operation, compact design, and high extraction power, the ZeroSmog Guard 2 is the perfect solution for those seeking effective air quality control in shared workspaces.
The ZeroSmog Guard 2 comes with the Wideband Gas Filter Set. Click here to find out more.
Key Features of the Weller ZeroSmog Guard 2:
1. Superior Air Quality
• High-Efficiency Filtration: The Weller ZeroSmog Guard 2 features a HEPA H13 filter, activated carbon, and potassium permanganate, providing superior air quality by effectively removing soldering particles, gases, and unpleasant odours. This combination of filters ensures maximum air purification, helping to maintain a cleaner, healthier workspace.
• Odour Removal: Activated carbon ensures that soldering fumes and chemical odours are neutralised, improving the overall comfort and air quality in your work area. **2. Quiet Operation**
• Lowest Noise Level: Operating atless than 55 dB, the Weller ZeroSmog Guard 2 is the quietest fume extraction unit on the market, providing a peaceful and distraction-free environment. Whether you're working with soldering or other tasks, the low noise level enhances comfort and productivity. **3. Powerful Smoke & Fume Extraction**
• Robust Blower System: The ZeroSmog Guard 2 boasts a high-flow blower that ensures consistent extraction power, maintaining sufficient suction pressure even as the filter ages. This guarantees that harmful fumes, smoke, and gases are efficiently captured.
• Dual-User Capability: Perfect for dual-user workstations, this system can handle the needs of two operators working simultaneously without compromising air quality. **4. Easy Maintenance & Filter Replacement**
• Quick Filter Change: The main filter and prefilters are easy to replace, ensuring that the unit requires minimal downtime and maintenance. This user-friendly design makes it easy to keep your system running efficiently.
• Filter Condition Monitoring: Built-in filter condition monitoring alerts you when it’s time to change the filter, ensuring the system is always working at optimal performance and keeping your air clean. **5. Compact, Space-Saving Design**
• Under-the-Bench Setup: The compact design of the ZeroSmog Guard 2 allows it to fit easily under your workbench, making it an ideal choice for environments where space is limited. It’s the perfect solution for small, shared workspaces where air quality is crucial. **6. Maximum Control & Safety**
• Status Indicator Light: The bright light bar provides a clear visual indication of the unit’s status, helping you quickly assess its performance.
• ESD-Safe Design: The Weller ZeroSmog Guard 2 is ESD-safe, preventing sensitive components and electronics from electrostatic discharge, making it suitable for electronics and soldering tasks.
