

Weller ZS Guard Light KIT1 ALFA

SKU: GW-FT-GLK1

Features & Benefits

- ◆ **Included Accessories:**
- ◆ Key Features of the Weller ZeroSmog Guard Light: 1
- ◆ Easy Filter Replacement Quick Filter Change: The Weller ZeroSmog Guard Light features easy-to-replace main filters (HEPA H13) and prefilters, reducing downtime and ensuring continuous air quality
- ◆ User-Friendly Features Low Maintenance: With easy-to-reach on/off switches and minimal upkeep required, this unit is designed for hassle-free operation

About the Weller ZS Guard Light KIT1 ALFA

Weller ZeroSmog Guard Light - High-Efficiency Fume Extraction for Cleaner, Healthier Workspaces

The Weller ZeroSmog Guard Light is a cutting-edge fume extraction unit designed to provide superior air quality in your workspace. With its powerful HEPA H13 filter and activated carbon, this compact, quiet, and efficient filtration system effectively captures soldering fumes, particles, and gases, ensuring a healthier and more comfortable working environment. Ideal for single-user setups, the ZeroSmog Guard Light is perfect for professionals in electronics, soldering, and other precision work.

The ZeroSmog Guard Light comes with the Standard Filter Set. [Click here to find out more.](#)

Key Features of the Weller ZeroSmog Guard Light:

1. Superior Air Quality

- High-Efficiency Filtration: Equipped with a HEPA H13 filter and activated carbon, this unit captures up to 99.95% of soldering particles and harmful gases, ensuring the air in your workspace remains clean and safe.
- Odour Removal: The activated carbon helps eliminate unpleasant odors during soldering, enhancing the overall air quality.

2. Quiet Operation

- Lowest Noise Level: At less than 50dB, the ZeroSmog Guard Light is one of the quietest fume extraction units on the market, offering a silent and comfortable working environment without distractions.

3. Powerful Fume Extraction

- High Suction Power: The robust blower provides consistent suction throughout the filter's life, maintaining a high flow rate to capture all smoke effectively. Whether you're using it for extended periods or in high-intensity soldering sessions, this unit ensures optimal performance.

4. Compact & Space-Saving Design

- Under-the-Bench Setup: Designed to save space, the Weller ZeroSmog Guard Light fits easily under your workbench, making it perfect for environments where space is limited. Its compact design ensures it won't clutter your workspace, while still providing maximum filtration efficiency.

5. Easy Filter Replacement

- Quick Filter Change: The Weller ZeroSmog Guard Light features easy-to-replace main filters (HEPA H13) and prefilters, reducing downtime and ensuring continuous air quality. The filters are simple to access and replace, minimising maintenance efforts.

User-Friendly Features

- Low Maintenance: With easy-to-reach on/off switches and minimal upkeep required, this unit is designed for hassle-free operation.
- ESD Safe: The unit is ESD-safe, providing added protection in sensitive electronics environments.

7. Convenient Accessories Included

- The Weller ZeroSmog Guard Light comes with a complete filtration kit, including:
- 1 x HEPA H13 main filter + Activated Carbon
- 5 x ePM1-75% pre-filters
- 1 x ALFA nozzle
- 1 x OF15 Hose
- 1 x Desk clamp

8. Efficient Power Consumption

- Powerful Yet Energy Efficient: Consuming just 74W at 230V, this unit provides powerful fume extraction while keeping energy usage low.
