

Weller ZeroSmog Guard

SKU: GW-FT-G

Features & Benefits

- ◆ **Power Supply:** 230 V
- ◆ **Power Consumption:** 74 W
- ◆ **Main Filter:** HEPA H13 + Activated Carbon + Potassium Permanganate
- ◆ **Prefilters:** 5 x ePM1-75%
- ◆ **ESD Safe:** Yes
- ◆ Key Features of the Weller ZeroSmog Guard: Superior Air Quality The Weller Zero Smog Guard features high-efficiency filtration using an H13 HEPA filter, activated carbon, and potassium permanganate to effectively capture harmful soldering particles, fumes, and gases
- ◆ The Weller Zero Smog Guard features a bright light bar that indicates the filter status, so you'll know exactly when it's time to replace the filters for optimal air quality

About the Weller ZeroSmog Guard

Weller ZeroSmog Guard Fume Extraction Unit: Clean, Quiet, and Efficient Air Filtration for Your Workspace

The Weller ZeroSmog Guard is the ultimate solution for maintaining a healthy and clean work environment. Designed to provide superior air filtration with minimal noise, this compact fume extraction system helps you breathe easier while soldering, ensuring a safer and more comfortable workspace. Whether you're working in a professional electronics lab or a home workshop, the Weller Zero Smog Guard is the perfect choice for effective smoke and fume extraction.

The ZeroSmog Guard comes with the Wideband Gas Filter Set. [Click here to find out more.](#)

Key Features of the Weller ZeroSmog Guard:

• Superior Air Quality

The Weller Zero Smog Guard features high-efficiency filtration using an H13 HEPA filter, activated carbon, and potassium permanganate to effectively capture harmful soldering particles, fumes, and gases. This advanced filtration system ensures your workspace stays clean and the air remains fresh, improving your health and well-being.

• Industry-Leading Quiet Operation

With the lowest noise level on the market (under 50 dB), the Weller Zero Smog Guard provides a quieter and more pleasant working environment. It's the perfect choice for users who require peace and focus while maintaining optimal air quality.

• Effortless Filter Replacement

The Weller Zero Smog Guard makes filter maintenance easy. Both the main HEPA filter and prefilters can be quickly and easily replaced, ensuring that your fume extraction system stays at peak performance with minimal effort.

• Compact and Space-Saving Design

The compact, under-the-bench design of the Weller Zero Smog Guard saves valuable workspace, making it ideal for single-user setups. Its slim profile fits neatly under your workbench, so you can maintain a clean and efficient workstation without taking up extra space.

• Powerful and Consistent Extraction

Equipped with a powerful blower, the Weller Zero Smog Guard ensures consistent suction pressure throughout the life of the filter. This high flow rate effectively captures all soldering fumes and smoke, maintaining a cleaner environment and reducing the risk of exposure to harmful particles.

• Filter Condition Monitoring

Stay on top of maintenance with the filter condition monitoring system. The Weller Zero Smog Guard features a bright light bar that indicates the filter status, so you'll know exactly when it's time to replace the filters for optimal air quality.

• ESD Safe and Low Maintenance

The Weller Zero Smog Guard is designed to be ESD safe, making it ideal for sensitive electronics work. It's also designed for minimal maintenance, with an easy-to-reach on/off switch and hassle-free filter changes.

• Compatible with GroveSales Easy-Click 60 Hose System

This fume extraction unit is compatible with the GroveSales Easy-Click 60 Hose System, offering enhanced flexibility and ease of use for soldering professionals.
