

# Weller ZeroSmog Guard 2

SKU: GW-FT-G2

## Features & Benefits

- ◆ **Power Supply:** 230 V
- ◆ **Power Consumption:** 142 W
- ◆ **Main Filter:** HEPA H13 + Activated Carbon + Potassium Permanganate
- ◆ **Prefilters:** 5 x ePM1-75%
- ◆ **Filter Monitoring:** Status light bar to indicate filter condition
- ◆ **Design:** Compact, space-saving under-the-bench unit
- ◆ **ESD Safe:** Yes
- ◆ **Blower:** Powerful blower for consistent suction pressure
- ◆ Key Features of the Weller ZeroSmog Guard 2: Advanced Filtration for Clean, Healthy Air: The Weller Zero Smog Guard uses high-efficiency filtration to remove soldering particles, gases, and odours from the air
- ◆ Featuring an H13 HEPA filter, activated carbon, and potassium permanganate, it offers the best air quality by capturing harmful fumes and providing odour removal during soldering

## About the Weller ZeroSmog Guard 2

### Weller ZeroSmog Guard 2: The Quietest Fume Extraction System for Cleaner, Healthier Workspaces

Ensure clean, breathable air in your workspace with the Weller Zero Smog Guard, the quietest fume extraction unit on the market. Designed for efficiency and comfort, this compact air filtration system provides superior smoke and fume extraction while maintaining a peaceful work environment. Perfect for soldering professionals, hobbyists, and anyone working with electronic components, the Weller Zero Smog Guard helps you create a healthier workspace by eliminating harmful fumes and particles.

**The ZeroSmog Guard 2 comes with the Wideband Gas Filter Set. [Click here to find out more.](#)**

#### Key Features of the Weller ZeroSmog Guard 2:

##### Advanced Filtration for Clean, Healthy Air:

The Weller Zero Smog Guard uses high-efficiency filtration to remove soldering particles, gases, and odours from the air. Featuring an H13 HEPA filter, activated carbon, and potassium permanganate, it offers the best air quality by capturing harmful fumes and providing odour removal during soldering. Protect your health with this top-tier fume extraction system.

##### Industry-Leading Quiet Operation:

With the lowest noise level on the market (less than 55 dB), the Weller Zero Smog Guard ensures a quiet working environment. This makes it ideal for both home workshops and professional labs, where noise reduction is critical to focus and productivity. Enjoy a more comfortable working experience while maintaining the highest air quality standards.

##### Easy Filter Replacement:

The Weller Zero Smog Guard makes maintenance hassle-free with quick and easy filter changes. Simply replace the main HEPA filter and pre-filters with minimal effort, ensuring your system runs at peak performance. Enjoy more time working and less time maintaining your equipment.

##### Compact, Space-Saving Design:

Designed to save valuable workspace, the compact design of the Weller Zero Smog Guard fits conveniently under your workbench. Its space-saving footprint makes it ideal for dual-user workstations, offering efficient air filtration without taking up extra space. Keep your workspace organised and free of clutter.

##### Powerful Smoke and Fume Extraction:

Equipped with a robust blower, the Weller Zero Smog Guard maintains consistent suction power to capture all soldering smoke and fumes effectively. With its high flow rate, this fume extraction unit keeps your air clean, ensuring a healthy workspace and improved focus.

##### Filter Monitoring for Maximum Control:

To maintain optimal air quality, the Weller Zero Smog Guard includes a filter condition monitoring system. The bright status light bar provides real-time information on the health of your filters, so you'll know exactly when it's time to replace them.

##### Dual User Filtration:

The Weller Zero Smog Guard is designed for dual-user workstations, offering efficient air filtration without taking up extra space. Keep your workspace organised and free of clutter. Equipped with a robust blower, the Weller Zero Smog Guard maintains consistent suction power to capture all soldering smoke and fumes effectively. With its high flow rate, this fume extraction unit keeps your air clean, ensuring a healthy workspace and improved focus.
