

Weller ZeroSmog Guard Light

SKU: GW-FT-GL

Features & Benefits

- ◆ **Filtration System:** H13 HEPA filter + Activated Carbon for particle and gas filtration + 5x ePM1-75% pre-filters
- ◆ **Maintenance:** Easy-to-replace filters for low-maintenance upkeep
- ◆ **Design:** ESD-safe and compact, perfect for small workstations
- ◆ **Compatibility:** Works seamlessly with **Weller Easy-Click 60 Hose System**
- ◆ **Key Features of the Weller ZeroSmog Guard Light:** Superior Air Filtration : Equipped with a H13 HEPA filter and activated carbon, this unit efficiently captures soldering fumes, harmful particles, and gases, providing you with clean and healthy air throughout your workday

About the Weller ZeroSmog Guard Light

Weller ZeroSmog Guard Light: Quiet and Efficient Fume Extraction for a Healthier Workspace

Breathe easily and work safely with the Weller ZeroSmog Guard, the quietest fume extraction unit on the market. Designed for soldering stations, this advanced filtration system removes harmful fumes and particles, ensuring a cleaner, healthier air quality in your workspace. Its compact design fits seamlessly under your workbench, saving valuable space while delivering powerful air filtration.

Whether you're working with soldering equipment or other materials that produce fumes, the Weller ZeroSmog Guard prioritises your health, helping you focus on your tasks without worrying about air quality. Experience a more comfortable and efficient work environment with this reliable fume extraction solution.

The ZeroSmog Guard Light comes with the Standard Filter Set. [Click here to find out more.](#)

Key Features of the Weller ZeroSmog Guard Light:

- **Superior Air Filtration:**
 - Equipped with a H13 HEPA filter and activated carbon, this unit efficiently captures soldering fumes, harmful particles, and gases, providing you with clean and healthy air throughout your workday.
- **Ultra-Quiet Operation:**
 - The Weller Zero Smog Guard operates at a noise level below 50dB, making it the quietest filtration unit available. It ensures a peaceful and focused workspace without disturbing noise.
- **Compact, Space-Saving Design:**
 - Its under-the-bench configuration is designed for single-user use, making it ideal for limited space environments. The compact size means you won't lose precious workspace.
- **Powerful and Consistent Extraction:**
 - The robust blower maintains a high flow rate and consistent suction power, ensuring effective smoke and fume capture even as the filter ages. This means longer-lasting performance with minimal loss in suction.
- **Easy Filter Replacement:**
 - Quick and hassle-free filter changes allow for easy maintenance. Both the main HEPA filter and pre-filters can be replaced effortlessly, keeping your unit in top working condition with minimal downtime.
- **Health and Comfort:**
 - By removing harmful particles and gases, the Weller Zero Smog Guard creates a safer and more comfortable workspace, improving air quality and reducing the risk of inhaling hazardous fumes.
