

Weller Zero Smog Shield Pro - Replacement Silicone Mat

SKU: GW-FT-9

Features & Benefits

- ◆ **Heat-Resistant Silicone:** Offers reliable protection against high temperatures, solder splashes, and flux residues
- ◆ **Durable Design:** Built to withstand frequent use and high temperatures without compromising performance
- ◆ **Easy to Clean:** Low maintenance, ensuring long-term use and a consistently tidy workspace
- ◆ **Perfect Fit for Zero Smog Shield Pro:** Designed to seamlessly integrate with the Zero Smog Shield Pro system
- ◆ **Non-Slip Surface:** Provides added stability during soldering tasks, reducing the risk of accidents
- ◆ **Ideal for Electronics Workstations:** Suitable for both professional and hobbyist use in soldering and desoldering applications

About the Weller Zero Smog Shield Pro - Replacement Silicone Mat

The Zero Smog Shield Pro Replacement Silicone Mat is an essential accessory for maintaining a clean, safe, and efficient soldering workspace.

Crafted from heat-resistant silicone, this mat provides excellent protection against solder splashes, flux, and other residues, ensuring your equipment stays safe while your work area remains tidy.

Specifically designed for use with the Zero Smog Shield Pro, it guarantees perfect compatibility and durability, making it an ideal choice for both professional and hobbyist use in electronics workstations.
