

XDS 9 - Desolder Measuring Tip

SKU: GW-XDS9

Features & Benefits

- ◆ Desolder measuring tip with a 2.2 mm diameter
- ◆ **Compatible with DSX 120 and WXDP 120 desoldering irons**
- ◆ Ideal for precise measurements of solder joints
- ◆ Perfect for high-accuracy tasks in soldering and desoldering applications
- ◆ Provides control and reliability for delicate component work

About the XDS 9 - Desolder Measuring Tip

The XDS 9 Desolder Measuring Tip is a specialised tool designed for precise measurements during desoldering tasks with the DSX 120 and WXDP 120 desoldering irons.

With a 2.2 mm tip size, it enables accurate solder joint measurements, ensuring reliable results when working with small or delicate components. This measuring tip is ideal for users who require high precision in their soldering and desoldering applications, providing both accuracy and control.
