

## Yellow ESD Attention Labels

SKU: 104-1 | Sizes: 12 x 22mm with Arc, 25 x 45mm with Arc, 38 x 75mm with Arc, 12 x 22mm without Arc, 16 x 38mm without Arc, 25 x 45mm without Arc, 38 x 75mm without Arc, 16 x 38mm with Arc

### Features & Benefits

- ◆ **Self-adhesive paper labels** for quick and easy application
- ◆ **1000 labels per reel** for bulk usage or large installations
- ◆ High-contrast yellow background with black text for clear, visible warning
- ◆ Industry-standard ESD static susceptible symbol for immediate recognition
- ◆ Supplied on quick-release paper for efficient application
- ◆ **Versatile usage:** can be applied to ESD bags, ESD bins, tote boxes, or used as tamper-proof labels

### About the Yellow ESD Attention Labels

#### Yellow ESD Attention Labels - Self-Adhesive Static Control

Our Yellow ESD Attention Labels are designed to clearly mark items and areas that are electrostatic discharge (ESD) sensitive. Printed with black text on a yellow background, these labels are highly visible, ensuring important ESD warnings are communicated effectively in any environment. Supplied on quick-release paper, these self-adhesive labels are easy to apply, making them an ideal solution for a wide range of applications.

Each reel contains 1000 labels, each featuring the industry-standard ESD static susceptible symbol for immediate recognition. These labels are perfect for use on ESD bags, ESD bins, ESD tote boxes, or any other items requiring protection from static discharge. They can also serve as tamper-proof labels, helping to secure ESD-sensitive products during transport or storage.

#### Uses:

- Apply to ESD bags for clear identification of ESD-sensitive items
- Use as tamper-proof labels to secure ESD products during transport or storage
- Ideal for marking ESD bins and tote boxes to maintain safe handling of electronic components
