

ESD Solvent Dispenser

An ESD safe bottle produced from static dissipative polyethylene, supplied with a pump action lid for simple hands free solvent dispensing.

FEATURES:

- Surface Resistance: 10^9 - 10^{10} Ohms/sq
- Easy to fill
- Size options: 120ml or 180ml
- Suitable for cleanroom use

Grove ESD dispensers are designed with the perfect way to dispense alcohol, acetone, isopropanol, methanol, turpenes, thinner and any other liquid applied with a swab, wipe or cotton ball.

- The dish pump dispenser allows for a clean one-hand operation. This original design reduces evaporation and prevents spills and contaminants from entering the container.
- The dispenser includes a hinged lid to keep out impurities while the container is not in use, and the stainless steel parts enable the use of aggressive solvents.
- A precision valve prevents contents from vaporizing and leaking, and to ensure total purity, the pump head is sealed with a cellophane band seal.

Bottle Material : HDPE Mixed with anti-static compound
Mechanical Pump Material : Stainless Steel
Surface resistance : 109 - 1010 Ohms/sq
Hazardous Material : None
Odour : None
Capacity : 120ml & 180ml
Weight : 76gms, 83gms
Packing : 1 Piece
Part No: G-SBD-12 / G-SBD-18
