

BLUE ESD HEELGRINDER

SKU: G-SH-1

Features and Benefits

- ❖ Secure clip design with snap release.
- ❖ Double-layered conductive cup
- ❖ Integrated 1 Megohm safety resistor
- ❖ Heavy duty construction
- ❖ Durable and reusable
- ❖ Compliant with ANSI/ESD S20.20 AND EIA-625

Blue ESD Heelgrinder– Technical Overview

Engineered for long-term durability, this heel strap features an enhanced comfort snap that provides a secure fit while eliminating discomfort and common issues associated with standard Velcro closures. Each unit is integrated with a 1 Meg Ohm safety resistor to deliver reliable static discharge control and safeguard against electrostatic build-up.

Ideal for electronics manufacturing, assembly lines, and other ESD-sensitive environments, this heel grunder ensures consistent and effective protection for personnel.
