

A Donaldson Company

A WORLD LEADER IN FUME
EXTRACTION TECHNOLOGY

Mobile FumeKART

MECHANICAL ENGINEERING

Last Updated on 04.02.2022

Multi purpose mobile dust and fume extraction system for a wide range of applications.

The BOFA FumeKART is the ideal portable air extraction and filtration unit and can be applied to a variety of applications.

Designed to filter dust particles, mould spores, solvent vapours and other pollutants from the work environment, the FumeKART is easy to operate and maintain and provides the additional benefit of being fully portable.

The FumeKART mobile fume extractor provides users with flexibility and the assurance of high-performance filtration. A filter condition indicator is included as a standard feature, together with three-stage filtration: pre-filter, HEPA and gas filter.

Ideal for laser applications, hand soldering, jewellery manufacturing, laser hair removal and lots more...

Technology

DeepPleat pre-
filter

HEPA filter

Advanced carbon
filter technology

Multi voltage
sensing unit

ProTECT service
plan

SureCHECK
quality standard

Key features of the Mobile FumeKART

Three stage filtration - F8 pre-filter / HEPA / gas filter
Standard

Low noise level
Standard

VOC Sensing (Volatile Organic Compound)
Optional

Complete with filter condition indicator
Standard

Digital air flow control
Standard

Various arm / hood options
Optional

Approvals: REACH and RoHS. See individual product technical data for specific accreditations

Technical specification

- | | | | |
|------------------------------------|--------------------------|-----------------------------|----------------------|
| 1. Unit / filter condition display | 2. On / off switch | 3. Extractor arm - 75/100mm | 4. Power cable inlet |
| 5. Filter housing latch | 6. Hose inlet connection | 7. Exhaust outlet | 8. Handle |
| 9. Castors | | | |

Airflow through filters

-  Chemical filter
-  HEPA filter
-  Pre filter
-  Clean air
-  Contaminated air
-  Particulate

Technical data

	CE	US
Dimensions (HxWxD)	840 x 475 x 550mm (without arm / spigot)	33.07 x 18.70 x 21.65"
Cabinet construction	Powder coated mild steel	Powder coated mild steel

Technical data		
Blower	Centrifugal turbine	Centrifugal turbine
Airflow	380m ³ /hr	223cfm
Electronics	90 - 257v Single-phase 1~ 50/60Hz Full load current: 12.5 amps	90 - 257v Single-phase 1~ 50/60Hz Full load current: 12.5 amps
Noise level	< 64dBA (at typical operating speed)	< 64dBA (at typical operating speed)
Weight	54kg	119lbs
Approvals	UKCA and CE	UKCA and CE

Pre-filter specifications	
Surface media area	8.25m ² approx (88.77 ft ²)
Filter media	Borosilicate
Filter media construction	Maxi pleat
Housing	Cardboard
Filter efficiency	95% @ 0.9 microns

Combined filter specifications	
HEPA filter media	Maxi pleat
HEPA media construction	Pleated with glue bead spacers
Filter efficiency	99.997% @ 0.3 microns
Surface media area	3.5m ² (37.66 ft ²)
Treated activated carbon	12kgs (26.4 lbs)
Filter housing	Zintec mild steel

Unit part numbers		
Model	Arm size	Part number
FumeKART	100mm	L3324A
FumeKART	75mm	L3224A

Unit option			
Description	Feature	Arm size	Part number
FumeKART	VOC monitoring	100mm	L3324A0004

Where applicable, the carbon used in BOFA units is capable of removing a wide range of VOCs, however it is the responsibility of the user to ensure the carbon is suitable for their application. For specific applications, please contact us for details.

Important Notice: *Many factors beyond the control of BOFA can affect the use and performance of BOFA products in a particular application, including the conditions under which the product is used. Since these factors are uniquely within the user's knowledge and control, it is essential the user evaluate the products to determine whether the product is fit for the particular purpose and suitable for the user's application. All products, product specifications, availability and data are subject to change without notice, and may vary by region or country.*
