

Hazard Marking Tape

Features:

- A heavy duty plasticised film coated with an aggressive pressure sensitive adhesive

Applications:

- Factory demarcation and hazardous areas

Specification:

Technical Properties:	
Tape thickness	0.15mm
Tensile strength at break	28.0N / 10mm
Elongation at break	150%
Adhesion to steel	2.0N / 10mm
Adhesion to self	2.0N / 10mm
Water extract (1g tape per 100ml) PH	6.0 to 8.0
Conductivity	max 2.5mS/m
Service temperature	0°C to 6-°C
Application temperature	5°C to 40°C
Recommended storage temperature	10°C
Shelf life	12 Months
Width of tape	Cut to order
Appropriate specification	BS3887: (1991) Part 2 Category 1 All colours DEF.STAN 75.7/1

Except where indicated otherwise, the above figures are average values and should not be regarded as maximum or minimum values for specification purposes. The company reserve the right to improve products and change specifications, which may alter performance. We advise the customer to test the material required to ensure the suitability of intended application.
