

F.L. Workstation

Four-leg design with enhanced carrying capacity and stability.

Workstation Overview

The height adjustable F.L. Design offers even greater flexibility where higher carrying capacities and stability are required.

Its sturdy, modular construction offers both aesthetically pleasing design and the ability to fit any of the [upper](#) and [lower](#) workstation accessories in the accessory range.

Technical Specifications

Electro-Static Discharge (ESD)

All F.L. Design workstations are available with full [E.S.D.](#) protection.

Size Availability

F.L Design workstations are height-adjustable to 760, 840, 880 and 920mm, and available in the following sizes:

Length	600	1200	1500	1800
Depth	450	600	750	900

All workstations come complete with adjustable feet for levelling purposes.

Colours

Powder coat finish to BS4800 - 00A05 GREY.
Other colours available upon request at extra cost.

Worktops

Worktops are available with the following finishes:

- Grey laminate
- Grey/Blue Marmolium
- M.D.F.

All 20mm worktops are balanced with an M.D.F. core. Lacquered or soft-feel edges are offered depending on worktop surface and application.
